

About King's

King's College London offers an intellectually stimulating environment in which to work, where staff are dedicated to the advancement of knowledge and learning, in the service of society. We are a multi-faculty institution, providing high-quality teaching, research and innovation across the sciences, humanities, medicine, law, dentistry, and social sciences. As a member of the Russell Group, an association of leading UK research-intensive universities, we are committed to maintaining the highest standards in research and education. King's is the largest centre for the education of healthcare professionals in Europe and is home to five Medical Research Council Centres spread across its three teaching hospitals.

King's is one of the top 10 UK universities in the world (QS World University Rankings, 2018/19) and the fourth oldest university in England, based in the heart of London. King's has over 31,000 students, including more than 12,800 postgraduates, from some 150 countries and over 8,500 employees. King's is a multi-disciplinary university comprised of nine academic faculties split across five central London campuses.

For further information please see www.kcl.ac.uk/aboutkings/index.aspx

King's Health Partners

King's, Guy's and St Thomas', King's College Hospital and South London and Maudsley NHS Foundation Trusts are part of King's Health Partners. King's Health Partners Academic Health Sciences Centre (AHSC) is a pioneering global collaboration.

Link to the King's Health Partners' website: <https://www.kingshealthpartners.org/>

Francis Crick Institute

King's is a founder member of the Francis Crick Institute, a biomedical discovery institute bringing together six of the UK's most successful scientific and academic organisations to understand the fundamental biology underlying health and disease and to translate discoveries into new ways to prevent, diagnose and treat major illnesses.

Link to the Crick webpage: <https://www.crick.ac.uk/>

King's Strategic Vision 2029

King's Strategic Vision looks forward to our 200th anniversary in 2029. It shows how King's will make the world a better place by focusing on five key strategic priorities: educate to inspire and improve; research to inform and innovate; serve to shape and transform; a civic university at the heart of London; an international community that serves the world.

The Vision demonstrates how King's will continue to inspire future generations, through a rounded education, to be the critical thinkers, problem solvers and change-makers the world needs. Through the highest quality disciplinary research and interdisciplinary collaborations, King's staff and students will contribute insights into and solutions for the world's many diverse challenges. As a community of staff, students, partners and collaborators, King's will serve the needs and aspirations of society both locally and across the globe

Link to Vision 2029 webpage: <https://www.kcl.ac.uk/aboutkings/strategy/index.aspx>

The Institute of Psychiatry, Psychology & Neuroscience (IoPPN)

“The IoPPN works to transform care for people who are affected by mental health and neurological conditions, through world-class research, education and training, and to serve our communities locally and globally.”

The Institute of Psychiatry, Psychology & Neuroscience (IoPPN), one of the nine faculties at King’s, is Europe’s largest centre for research and postgraduate education in psychiatry, psychology, basic and clinical neuroscience. We are world-renowned for the quality of our research and the IoPPN produces more highly cited publications in psychiatry and mental health (Scopus, 2016) than any other university in the world.

The IoPPN has over 2,000 students, 1,000 staff (370 core funded) and a turnover of £150 million (£60 million research). Split across Denmark Hill and Guy’s Campus, the IoPPN has the unique advantage of being co-located with the world famous Maudsley Hospital, now part of the **South London and Maudsley (SLaM) NHS Foundation Trust**. This successfully facilitates the seamless movement of researchers and clinicians between the two institutions and ensures high quality translational research, new understanding of the nervous system and novel approaches to treatment.

Together, SLaM and Kings have been responsible for many ground-breaking evidence-based developments in mental health and neuroscience, from basic science across the full translational range of activities. Breakthroughs include the contributions by Rosalind Franklin, Ray Gosling and Maurice Wilkins to understanding the structure of DNA, the treatment of shell shock, the Maudsley model for treating eating disorders, medication for migraines, CBT for psychosis, the role of nicotine in addiction, stem cell therapy to repair stroke damage, and many more.

Our impact over the past 100 years was recently honoured when Her Majesty the Queen awarded King’s the country’s first Regius Chair in Psychiatry in 2013, as part of her Diamond Jubilee celebrations.

The partnerships with NHS trusts, charities, industry, and national and international academics allows us to apply cross-disciplinary perspectives to prevention, treatment and novel research approaches. Working across the lifespan, as well as the mental and physical health interface, we influence policy, practice and public understanding of mental health and neuroscience.

In the 2014 Research Excellence Framework we were judged to have the second highest research power in the UK for Psychology, Psychiatry and Neuroscience, and the impact of our work was 100% world leading or internationally excellent, and our research environment judged as 100% world leading.

We are home to one of the world’s largest centres for postgraduate education and research in the areas of psychiatry, psychology and neuroscience, and we are ranked 1st in the world for the number of research papers in these areas in the top 10% (Scopus Data). Our world-class research-led learning experience attracts the very best students from around the world. Students have unparalleled opportunities in clinical training, placements and research as a consequence of the Institute’s long relationship with, and close proximity to, the Maudsley Hospital.

Our psychology, psychiatry and neuroscience courses offer training in a variety of specialist fields that have clear applications in mental health care and neuroscience (including careers in clinical, forensic or health psychology, clinical neuropsychiatry, neurology, neuroimaging, therapy, addictions work, mental health nursing, NHS service management). Our teaching activities have expanded from around 100 full-time-equivalent students to around 1,000 over the last two decades and we launched our first full undergraduate programme in psychology three years ago, which has been heavily oversubscribed. We currently offer 5 undergraduate courses and 26 postgraduate courses.

Structure

The IoPPN is made up of three major academic Divisions and 14 Departments.

1. **Psychiatry**
2. **Neuroscience**
3. **Psychology and Systems Sciences**

Division of Psychology and Systems Sciences comprises four departments (Psychology, Biostatistics and Health Informatics, Social Genetic and Developmental Psychiatry, Health Services Research) and includes more than 100 Principal Investigators, with research grants of £30-40 million. Our programmes cover the whole spectrum of Psychiatry and Psychology from public policy to genetics, from psychological treatments to brain imaging. Our work covers the life span, healthy adults and children and of course people with physical and mental health conditions:

About the Department of Psychology

The Department of Psychology was founded in 1950 at the Institute of Psychiatry (now the Institute of Psychiatry, Psychology and Neuroscience, IoPPN); since then it has carried out a distinguished programme of research, teaching and clinical practice, with a long-standing link with the South London and Maudsley NHS Foundation Trust and other King's Health Partners. The Department is one of the UK's largest academic groupings of clinical and health psychologists, with developing strength in broader areas of applied and basic psychological science.

It delivers a broad portfolio of education programmes. At BSc level it has BSc Psychology, intercalated (medical) BSc programmes in Psychology and in Neuroscience, and delivers the Psychology curriculum to the King's medical undergraduate programme. At post-graduate level it runs a BPS accredited Health Psychology MSc and a suite of HEE commissioned adult-IAPT and CYP-IAPT programmes, at all levels.

It is one of the largest departments in the IoPPN, with 39 academic staff (of whom 16 are clinical psychologists) and 59 PhD students in addition to its cohort of 73 DCLinPsy trainees.

The department is based across the Denmark Hill campus and the Guy's campus where the BSc Psychology programme (Years 1 and 2) and the Section of Health Psychology are located.

South London & Maudsley (SLaM) NHS Foundation Trust

The South London & Maudsley (SLAM) NHS Foundation Trust provides comprehensive local mental health services to the London Boroughs of Southwark, Lambeth, Croydon and Lewisham (pop. 1.1 million). The Trust Board is chaired by Roger Paffard and the Chief Executive is [Dr Matthew Patrick](#).

Clinical Academic Groups (CAG)

Clinical Academic Groups (CAGs) are being created across the hospitals and King's College London to foster teaching, training and research. The present management structure of SLAM has changed with the creation of CAGs.

Within South London and Maudsley NHS Trust there are 6 Clinical Academic groups as follows:

CAG	Academic Lead	Clinical Director
Addictions	Prof John Strang	Dr Emily Finch
Behavioural and Developmental Psychiatry	Prof Declan Murphy	Prof Tom Fahy and Dr Dene Robertson
Child and Adolescent Mental Health Services	Prof Emily Simonoff	Dr Bruce Clark
Mental Health of older Adults and Dementia	Prof Dag Aarsland	Daniel Harwood
Psychological Medicine and Integrated Care	Prof Allan Young	Dr Ranga Rao
Psychosis	Prof Phil McGuire	Dr Rob Harland

Job description

Post title	Professor of Psychology
Department/Division	Psychology Department
Faculty	IoPPN
Grade/salary	The appointment will be made, dependent on relevant qualifications and experience, at a salary level settled by negotiation and commensurate with the seniority of the role and the level of appointment
Hours of work	Full-time
Period of appointment	Indefinite
Responsible to	Vice Dean Psychology and Systems Sciences, and Executive Dean, Institute of Psychiatry, Psychology and Neuroscience (IoPPN)
Responsible for	Deputy Head of Department Departmental Business Manager Academic Staff
Campus	Denmark Hill

Role purpose

King's College London seeks an outstanding leader as Professor of Psychology and Head of the Department of Psychology within the Institute of Psychiatry, Psychology and Neuroscience. The Institute is one of Europe's leading centres for mental health research with strong translational and clinical links with our KHP partners – South London and the Maudsley, King's College Hospital, and the Guy's and St. Thomas's NHS Trust. It is a school of King's College London.

The role presents an exciting opportunity for a leader who can help a very strong department scale new heights in research quality and impact and education, supporting the Institute and wider College's strategic priorities for the coming years.

The Chair and Head is responsible for all faculty, professional service staff, and students in the Department of Psychology. She or he will lead the Department of Psychology in continued excellence in education across our undergraduate and postgraduate programmes, and in research through harnessing the potential for King's Health Partners to translate that research for patient benefit.

The Head of Department will work closely with the Deputy Head and Departmental Business Manager to deliver the day-to-day and strategic management of the Department, ensuring clear, consistent, and effective management of the Department.

The Head of Department role is for an initial five years at which point the role will be reviewed for a further five-year extension

Role profile

Academic Plan (Head of Department Role)

- Lead a diverse group of academic and clinical academic psychologists, and work closely with the Executive Dean of the Institute of Psychiatry, Psychology and Neuroscience (IoPPN) and Vice Dean

of the Division of Psychology & System Sciences (PaSS) to lead the department to sustain and grow its international reputation for excellence in education and research

- Develop an overall academic plan for the Department that balances the mission of research, education and translational interactions with healthcare partners, and integrates the contributions of constituent academic staff
- Work with the Vice Dean of the Division to develop a financial strategy consistent with the academic plan and compliant with resource allocation as determined by Division, Institute and University distribution models. The Head of Department will be expected to contribute to the annual Business Planning Round and revenue-generation initiatives. They will manage any intra-year budgetary adjustments within the Department as required by the Division, Institute or University.

Academic Plan (Education)

- Work with the Vice Dean, Divisional Educational Lead, Dean, and Deputy Dean of Education, plus departmental staff as appropriate, to develop an educational plan for the Department including leadership of UG and PGT programs, modular contributions to others, and contributions to undergraduate (esp. MBBS), postgraduate and other educational initiatives, with an eye towards integration of new pedagogical methods, and enhanced student experience
- Contribute personally to the development and delivery of education as well as to the overall educational governance and quality enhancement activities, with responsibility for the annual UG and PGT programme enhancement plans. Education contributions equivalent to at least 20% pro-rata (320 hours fte p.a.) are expected.

Academic Plan (Research)

- Work broadly and effectively across the Department, providing an overarching vision and leadership to its research
- Take a lead role in fostering interdisciplinary research across the Institute and wider College
- Support, mentor and foster the research and personal development of junior academics, postdoctoral researchers, and PhD students to ensure their effective development
- Develop an externally funded programme of research in translational treatment that is applicable to psychological disorders across the lifespan. Research should be of direct clinical relevance, leading to improvements in clinical services
- Take a lead role in developing interdisciplinary research across Clinical Academic Group (CAG) boundaries
- In the context of the overall guidance from the IoPPN Executive and the Vice Dean Psychology and System Sciences, develop a mechanism for the active monitoring of grant submissions, grant portfolios and research outputs with a view to enhancing quality, ensuring delivery and maximising income generation.

Operational Management

- Work with the Deputy Head and Departmental Business Manager to ensure the effective delivery of all systems and processes involved in the day-to-day delivery of departmental operations in line with King's policy and procedures, including, but not limited to, financial management, research grant management, human resources, equality and diversity, health and safety, and facility and estate management
- Take responsibility for the management of budgets related to departmental activity as outlined in the University's Financial Regulations and Procedures, and in line with Department, Division, Institute, and University strategy
- Take leadership on resolving escalated operational queries as required, referring to the Divisional and Institute Management Teams, and Professional Service functions as required.

Performance Development and Management

- Maintain an effective system of line-management and appraisal for academic and non-academic staff within the department, in line with the prevailing IoPPN policy for all staff

- Attend Division and Institute level performance review meetings and be responsible for monitoring actions and reporting on progress
- Lead initiatives for faculty, staff, and student development in the Division with special attention to the enhancement of the work environment for women and minorities, and to support early career researchers and enhance the student experience
- Directly line manage Professorial, and other key senior academic staff, as required.

Diversity & Inclusion

- It is expected that the Head of Department will lead the Department in line with equality and diversity principles and expectations set at Institute and University level, and that they will champion and support initiatives in this area, fostering a departmental culture of inclusion, fairness, equality of opportunity and collaboration focused on the needs of all staff and student groups
- The Head of Department should ensure that action plans developed to implement Equality Charters such as the Athena SWAN and Race Equality Charters are implemented in their departments
- The Head of Department should facilitate discussion on protected characteristics which is respectful and courteous and ensure that any D&I issues are dealt with promptly and fairly.

Representation and Ambassadorial Role

- Coordinate and deliver departmental involvement in major strategic awards, in philanthropic initiatives, KCL-wide research and educational initiatives, personnel and organisational development, communication, marketing and promotional events.

Responsibility to the larger IoPPN Community

- To foster the success of the Department in a way that supports the entire IoPPN community, in particular to lead and support active collaboration with other Departments and cross-IoPPN and King's initiatives. To achieve these objectives, the Head of Department will be a member of the IoPPN Management Board
- Be an active member of the Divisional Executive Committee, meeting regularly to coordinate the research, education, and business of the Division
- Chair regular whole departmental meetings to ensure the effective dissemination of information to departmental staff and students, and to seek feedback as appropriate.

Clinical

- To sustain and grow the contribution of departmental clinical academic staff to the delivery of clinical services in partner NHS Trusts
- A clinically qualified appointee will have a clinical role appropriate to his or her training and professional licensure, carrying out several sessions per week within King's Health Partners. Such appointees hold honorary consultant contracts with the appropriate partner foundation NHS Trusts. Clinical work is open to negotiation but may involve assessment and management of out- and inpatients. There are no on-call duties.

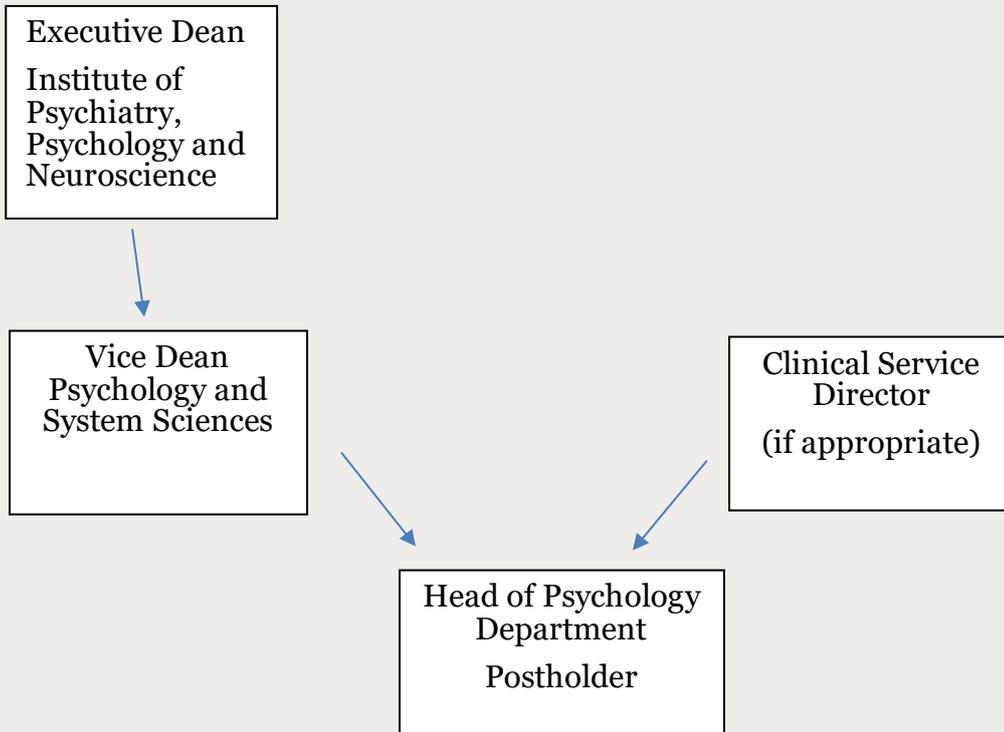

Additional responsibilities

- This description reflects the core activities of the programme role and as the College and the post-holder develop there will inevitably be changes in the emphasis of duties. It is expected that the post-holder will recognise this and adopt a flexible approach to work.

Role Performance and Evaluation

- Carrying out this role successfully will take dedicated time every week, some weeks will be more intense than others, and occasionally it will require attention beyond regular office hours. A precise role profile will be agreed with the selected candidate, but they will be expected to continue their major academic (and if relevant, clinical) commitments – with appropriate time provision for this role
- The evaluation will be based on performance indicators agreed with the Vice Dean relating to the major aspects of the role noted above.

Organisational chart

Person specification

Eligibility to work in the United Kingdom

Applications are welcomed from international candidates. The recruitment of this post meets Home Office advertising requirements that qualify the role for sponsorship under Tier 2. Consequently, if required, the university could potentially sponsor the successful candidate in applying for a visa under Tier 2 of the points based immigration system, providing all other requirements are met.

Information on Tier 2 sponsorship can be found on the UK Visas and Immigration website:
www.gov.uk/tier-2-general/overview

Criteria	Essential	Desirable	How identified and assessed*
*For 'How identified and assessed' use: AP - application, AS - assessment, I - interview, P - presentation, R - references			
Education / qualification and training			
Hold a PhD and, if appropriate, qualification and registration as a Clinical Psychologist, typically DClinPsy, and either eligible for or HPC registered	X		AP
Be an internationally recognised leader in psychological research as relevant to clinical conditions and treatments	X		AP
Experience			
Demonstrable leadership qualities with strong achievement orientation	X		AP, I
Distinguished track record in Research and/or Education Leadership	X		AP, I
International profile as evidenced by sustained research outputs, publications in scientific journals, presentations at conferences, patents, successful knowledge transfer	X		AP, I
Have set the direction of a major academic initiative, developing a vision and inspiring others to get involved	X		AP, I
Demonstrate a strong bias towards translation of findings from basic science into advances in clinical care. Research of direct clinical relevance, with demonstrable potential to improve clinical services for users and their families		X	AP
Experience of administrative functions including performance management, staff development and budgetary responsibility	X		AP, I
If appropriate clinical experience in the NHS		X	AP
Personal characteristics/other requirements			

Criteria	Essential	Desirable	How identified and assessed*
*For 'How identified and assessed' use: AP - application, AS - assessment, I - interview, P - presentation, R - references			
Have the necessary ambition, energy, commitment and determination, to direct and drive forward the Department of Psychology to maintain pre-eminence in its field and cultivate new world-leading strands of enquiry	X		AP, I
Effective diplomacy and negotiation skills with demonstrated ability to achieve constructive, mutually beneficial relationships with internal and external stakeholders	X		I
Open-minded, constantly on the look-out for ways of taking research ideas in new directions crossing disciplinary boundaries.	X		I
Enjoy the communication, leadership and ambassadorial challenges of the role	X		I
Comfortable with persuading colleagues to undertake new initiatives, excellent interpersonal skills and proven ability to work as part of a team	X		AP, I
A demonstrable understanding of the opportunities and challenges of working within a translational environment, illustrating aptitude to foster effective working relationships with King's Health Partners NHS Trusts as required to deliver the Department's research and educational mission		X	AP, I
Commitment to delivering a high-quality clinical service that is valued by patients	X		I
A commitment to excellence and innovation in education at both undergraduate and postgraduate level	X		I
A demonstrable understanding of, and commitment to working within, principles of equality and diversity	X		AP, I

Disclosure and Barring Service Clearance (DBS, formerly CRB)

This position is exempt from the Rehabilitation of Offenders Act (1974). As such, shortlisted candidates will be required to declare full details of any criminal background, regardless of whether the conviction is spent, and the university will be required to apply for an enhanced disclosure (a criminal records check) from the Disclosure & Barring Service in relation to the successful candidate.

Level of DBS Clearance required - indicate all applicable aspects:

Carrying out regulated activities ¹ :	To be determined	No Regulated Activity but contact with vulnerable groups ² :	To be determined
No Regulated Activity but deemed a position of trust ³ :	Yes	Situated in a Regulated Environment i.e. NHS premises ⁴ :	Yes

1. The scope of Regulated Activity for work with children and young people is defined under the age of 18 years old. An adult is not considered to be vulnerable due to any personal characteristic: however, an adult may be regarded as vulnerable due to particular circumstances at a particular time, for example when they are receiving treatment in a hospital.
2. Contact with vulnerable groups must meet the frequency threshold of 4 days in a 30 day period.
3. A position of trust is any post that requires authorisation for restricted access to confidential data (not including anonymised patient data), premises or currency.
4. KCL buildings do not qualify as regulated environments and only our partner NHS Trust sites qualify as regulated environments.

Further information about the Disclosure scheme can be found at: www.gov.uk/dbs

A criminal record will only be taken into account for recruitment purposes, where the conviction is relevant to the position being applied for, and whether this is the case, will not necessarily bar candidates from employment. Any decision will depend on the precise nature of the work, the circumstances and background to the offence(s). The same procedure will be followed for university staff applying internally for a vacancy.

Occupational Health Clearance

As part of our pre-employment checks the successful applicant will be sent a 'Health and Capability Declaration Form' and if they declare that they do have a health condition or disability that may require accommodation measures so that they are able to carry out their work comfortably and efficiently, they will be sent an Occupational Health Questionnaire to determine whether any reasonable accommodation measures are required for the candidate to take up the post.

Specific aspects - indicate frequency D (daily), W (weekly), M (monthly) where applicable:

Intensive Display Screen Equipment work (e.g. data entry or digital microscopy) ¹ :	D	Direct patient contact involving exposure prone procedures (EPP) ² :	N/A
Heavy manual handling ¹ :	N/A	Direct patient contact, no EPP ²	W
Highly repetitive tasks (e.g. pipetting or re-shelving books) ¹ :	N/A	Work with patient specimens (e.g. blood or tissue samples) ² :	N/A
Shift work, night work or call-out duties ² :	N/A	Work with GM organisms or biological agents that may pose a hazard to human health ² :	N/A
Work involving risk of exposure to environmental or human pathogens (e.g. in waste streams or soils) ²	N/A	Hazards which require health surveillance e.g. respiratory sensitisers (allergens, substances with risk phrase R42, wood dust etc.) or loud noise ²	N/A
Driving vehicles on university business ² :	N/A	Food handling or preparation ² :	N/A
Work at height (e.g. ladders, scaffolds etc.) ¹	A/A	Work in confined spaces (e.g. sump rooms, etc.) ¹	N/A

1. These hazards do not require health assessment but may require advice from OH if a successful candidate declares a disability or health condition in the Health & Capability Declaration.
2. These hazards automatically require the successful candidate to undergo employment health assessment to identify any necessary health surveillance, recommended vaccinations or other risk control measures. The Occupational Health option must be checked on the SRAF or the Employment Checks page in the e-Recruitment system.

Equal opportunities

King's College London recognises that equality of opportunity and the recognition and promotion of diversity are integral to its academic and economic strengths. The following principles apply in respect of the university's commitment to equality and diversity:

- To provide and promote equality of opportunity in all areas of its work and activity;
- To recognise and develop the diversity of skills and talent within its current and potential community;
- To ensure that all university members and prospective members are treated solely on the basis of their merits, abilities and potential without receiving any unjustified discrimination or unfavourable treatment on grounds such as age, disability, marital status, pregnancy or maternity, race, religion or belief, sex, sexual orientation, trans status, socio-economic status or any other irrelevant distinction;
- To provide and promote a positive working, learning, and social environment which is free from prejudice, discrimination and any forms of harassment, bullying or victimisation;
- To foster good relations between individuals from different groups and tackle prejudice and promote understanding.

King's has been a member of the Athena SWAN Charter since 2007 and first gained its Bronze institutional award in 2008. Our award was successfully renewed in 2016 for a further four years. The Athena SWAN agenda forms part of a wider suite of diversity and inclusion work streams. Working with the Charter is helping King's to identify best practice for the working environment of all staff working in science disciplines.

Summary of Terms and Conditions of Service

This appointment is made under the King's College London Terms and Conditions of Service for Academic staff a copy of which is available from the Recruitment Team upon request.

Probation

Annual leave

27 working days per annum pro rata (please note the annual leave year runs from January-December) bank holidays and customary closure days in are in addition to the annual leave entitlement. Staff receive four additional customary closure days in December. Notification as to how these days are taken is circulated at the start of the academic year.

Superannuation

This appointment is superannuable under the USS www.uss.co.uk pension scheme. In accordance with recent legislation, we automatically enrol our staff in a pension scheme if they meet certain age and earning criteria. This is known as auto-enrolment. The university collects pension contributions via a salary sacrifice method called *PensionsPlus*. These deductions are made before the calculation of tax and national insurance is calculated; therefore reducing the amount you pay.

Staff already superannuated under the NHS Superannuation Scheme may opt to remain in that scheme provided an application to do so is received by the NHS scheme trustees within three months of appointment to King's College London. Please note that NHS Superannuation Scheme: Medical Schools are classed as "Direction Employers" and some benefits of the NHS Scheme are not available to Direction members.

Alternatively staff may opt to take out a personal pension. Please note that the university does not provide an employer's contribution towards a private pension plan.

Staff benefits

King's College London offers a wide range of staff benefits. For the full comprehensive list of staff benefits please refer to our website: www.kcl.ac.uk/hr/staffbenefits

Applicants with disabilities

King's College London is keen to increase the number of disabled people it employs. We therefore encourage applications from individuals with a disability who are able to carry out the duties of the post.

Response

All applications will be considered with respect to the criteria outlined in the person specification. We aim to contact you within four weeks of the closing date to inform you if you have been selected for interview. We are unfortunately not able to provide feedback at the shortlisting stage.
